Stomach Troubles Afforded by a
Stuart's Dyspepsia Tablet.

Free Trial Package.

There is no occasion to suffer five minutes from indigestion or any similar stomach trouble when you can so easily get Stuart's Dyspepsia Tablets.

The Time It Takes a Messenger to Get
Stuart's Dyspepsia Tablets Seem
An Age to a Sick Stomach.

When millions are used every year—and when every other man or woman that you meet will recommend Stuart's to you if you will but inquire—why do you continue to suffer from stomach trouble? What more evidence can you ask? And as still further proof you can even send and get a sample package entirely free. The sample will surely convince you.

The reasons why Stuart's Dyspepsia Tablets accomplish such results are very easy to understand. These tablets contain almost the same elements as the gastric juices of the stomach. And when your stomach is sick and not working just right, it does not give out enough of the natural digestive juices to properly take care of the food you eat. So if you will only give the stomach a little help by taking a Stuart's Dyspepsia Tablet you will relieve it of its chief duty and allow it the rest it needs to recuperate. One grain of the active principle in Stuart's Dyspepsia Tablet will digest 3,000 grains of food, whether you place it in a glass jar or in your stomach.

All druggists sell them. The price is 50 cents per box. If you prefer to try them first write to E. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich., and a sample package will be sent you free.

State Commission Wants Information

Local Committee Asked Regarding the Securing of City Water, the Objection From the State Hospital and Other Matters Concerning the Sholes Farm.

The response of the state tuberculosis commission to the offer of the board of trade committee was received on Tuesday and, as anticipated, it was indefinite as to what the commission thought of the proposition of the Sholes farm. It was evident that the commission had considered the change thoroughly and that there arose some questions in their minds as to whether the requirements could be met, with the result that the letter contained several questions which the board will answer at once, so that before the meeting next Monday the commission will have the needed data before them.

Among the questions asked of the board is one concerning the securing of a supply of city water for the farm. They wish to know if it can be gotten there. They also wish to know if there is any objection from the state hospital trustees about having the sanatorium located on their watershed. There were other questions which the commission asked, but which the com-

mittee did not desire to make public just now, as they must be looked up, and it is not intended to waste any time in so doing.

The board gives no indication of how the commission feels about the change or as to the Sholes farm, except what can be gathered from the questions. It was stated here, however, that it came here that city water could be obtained for the institution at the Sholes farm. There is a city water main within a short distance of the place, there being a hydrant at the end of Palmer street at the top of Fox Hill. As to the hospital objection, Supt. Pollock has stated that the trustees will object to the site, as it is on the watershed of their reservoir.

Concerning some of the other questions it is believed that the committee can give favorable answers. As far as anything was indicated by the latter, one member of the committee said that he considered that everything looked favorable at the present time for the Sholes site.

ALLEGED WIFE IS MAKING MARRIAGE KNOWN.

Mrs. Frank S. Bond Says Her Husband and She Made Verbal Agreement.

Miss Marie Louise Morse, or, as she prefers to call herself, Mrs. Frank S. Bond, a middle aged woman, who says she will sue the estate of Frank S. Bond, former president of the Philadelphia and Reading railroad, at No. 15 West Ninety-eighth street, says a New York despatch, told of the twelve years she alleges she lived with Mr. Bond as his wife and of his desertion of her. "I was introduced to Frank Bond by a mutual friend," she said, "and he immediately began to pay me marked attentions. At that time I was a fashionable dressmaker and was making a very good income. After I had gone about with Frank and learned to love him he made me give up my business to marry him. He engaged an apartment at No. 240 West 114th street. He said it would be harmful to have it known that he was married. He married and suggested that I enter into a verbal agreement with him whereby we would be just as legally married as if we had a minister perform the ceremony, without any publicity. "I trusted him and we went through a little ceremony all by ourselves. "From June, 1887, until November, 1898, we lived happily together. Then I learned that Mr. Bond was paying attentions to other women. I questioned him and he pleaded for my forgiveness. I granted it and in gratitude he took out a life insurance policy in my favor. "But our happiness was short after that. Frequently he took trips out of town, leaving me alone. About three years later he left me entirely. I engaged counsel to sue for recognition of my rights. After turning over to them many valuable letters and papers I received \$2,250 as a first payment, for which I was told to sign. I imagine my surprise when I was informed a few weeks later that when I signed that paper I had given up all claim to dower rights. "Frank's liberality when he was with me had spoiled me, and I was not long until I was again penniless. I wrote to Frank that I had been disappointed and he sent a friend of his to tell me he would not help me again. So I had the furniture he had bought for me sent to his house. He had me arrested, but when the truth was told the judge discharged me. "I went to live with kind friends, whose name I don't care to tell, and began working at my old business. But my customers had gone elsewhere and it has been a hard struggle for me to make my living. When I read of Mr. Bond's death I went to New London and had a talk with his nephew, who was very kind. "I shall engage counsel at once. My only reason for discontinuing my suit before was a lack of funds, but since that time I have made enough to be able to reopen my claim."

It is understood that Mr. Bond left a will, and that he made no recognition of Marie Louise Morse in it.

WILL EXCEED \$300.

Proceeds from St. Mary's Society Festival Not All In Yet.

The meeting of St. Mary's T. A. and B. society Tuesday evening in the T. A. B. building had an unusually large attendance, and numerous important matters were discussed. President William H. McGuinness was in the chair. The president was appointed a committee of one to arrange for the society attending Holy Communion in a body on in Lent. Favorable reports have been made from the anniversary festival held in January, which show that the net proceeds will exceed the \$300 which some had anticipated might be made, but will not reach the \$400 mark. The returns are not completely in yet.

OVER HALF A MILLION

Paid by State to Towns for School Children.

The state comptroller's office is paying to the towns the \$235 apiece for school children to which they are entitled. The original purpose was for this to be paid out of the income from the school fund, but the state has outgrown this source of income and the necessary amount is made up from other sources. The amount which the state pays out this year, due March 1, is \$575,522.24. Of this only \$112,576.84 is available from the school fund. These amounts were sent to various towns Monday: Ledyard \$497.25, Montville \$1,399.50, Norwich Central district \$3,321, Norwich Town street, \$2,875.

NEW LONDON VOTES FOR MORE LIGHTS

Ex-Governor Waller Points to Norwich as Example of Low Electricity Charges.

The New London council has agreed to have the electric lights wanted, added to the present ones, the company agreeing to reduce the cost from \$82.50 to \$77.50 a light and in some instances the newer lights will be installed and will replace some bug lights. The reduction will allow the new lights at about the same cost.

Commenting on its action ex-Gov. T. M. Waller writes the New London Globe: "The city uses no gas, or not enough to speak of, while the people are using less and less, as electricity is fast taking its place for lighting and would soon take it altogether if it were furnished fairly reasonable profitable prices—as it is in other places, and not farther off than Norwich."

Until a very short time ago, our people were paying fifteen cents per unit for it, while in Norwich it is furnished to the people from two cents to cents per unit, according to quantity, while we are paying for it now fourteen cents per unit, or nearly fifty per cent. more than they are paying for it in Norwich.

And the Norwich municipal company that furnishes it so reasonably, as its public reports show, are making a handsome profit on its investment.

If anyone doubts the statement, call up his honor, Mayor Thayer, of Norwich, as I have, and I know he will tell you the same thing. It is true, gas is furnished at a comparatively reasonable rate—if the comparison is strictly limited. But no such statement, however qualified or limited, can be honestly made of its electric electric charges.

Our people should be able to obtain electricity for their household and other purposes as cheaply as the people of Norwich and other places do.

Too Many Suicides in Boston.

Boston, March 5.—There are too many suicides in Boston, in New York and all of our big cities, declared the Rev. Dr. H. P. Nichols of New York, in an address today. The reason, he said, is because "there are far too many people today who are lost to their usefulness. They are lost to their best selves, and are not able to stand upright what may be coming to them."

Quickest Relief Known For all Sore Feet

The following is absolutely the surest and quickest cure known to science for all foot ailments: "Dissolve two heaping spoonfuls of Calocide compound in a basin of warm water. Soak the feet in it for full fifteen minutes, gently rubbing the sores parts. The effect is really wonderful. All soreness goes instantly; the feet feel so good you could sing for joy. Corns and callouses can be peeled right off. It gives immediate relief for sore bunions, sweaty smelly aching feet. A twenty-five cent box of Calocide is said to be sufficient to cure the worst feet. It works through the pores and removes the cause of the trouble. Don't waste time on uncertain remedies. Any druggist has Calocide compound in stock, or he can get it in a few hours from his wholesale house. It is not a patent medicine but is an ethical preparation."

"WOMAN IN THE CASE" PLEADS NOT GUILTY.

Mrs. Stuart Charged With Receiving Money Stolen by Shaw.

Boston, March 5.—Mrs. George M. Stuart pleaded not guilty in the superior court today to two indictments found against her yesterday in connection with the proceedings against Arthur Willis Shaw, the Freeport, Me. shoe manufacturer, now in Los Angeles, Cal. The indictments charge her with receiving money alleged to have been stolen by Shaw from the firm with which he was connected and with being an accessory before the fact in the alleged larceny. Mrs. Stuart furnished \$2,500 surety and was released. The A. W. Shaw corporation of Freeport, Me., today filed suit in the Suffolk supreme civil court against Shaw to recover \$25,000.

Two police inspectors will leave this city tomorrow afternoon for Los Angeles with extradition papers to bring back Shaw, who is under arrest there charged in two indictments with larceny.

MAY CHOOSE DELEGATES BY DIRECT ELECTION.

Bill in Massachusetts Legislature to That Effect.

Boston, March 5.—Direct election of district delegates to the republican and democratic national conventions this year, with an expression of preference by the voters as to presidential candidates, is provided for in a bill passed by the senate today.

The bill now goes to the house, where the sentiment is said to be largely in favor of its passage.

The presidential primary bill as originally drawn omitted the presidential preference feature, but the senate today adopted an amendment offered by Senator Stearns inserting the preference proposition. An amendment to include the delegates at large in the direct election was defeated.

Milady's Toilet Table

By Mme. D'MILLE

There are simple home treatments that keep the hair and complexion young looking. Dry shampooing cleans the scalp and hair, and makes the hair grow. Just put a cupful of cornmeal in a fruit jar and mix with it an original package of thorax; sprinkle a little on the head and brush out. It brushes out easily and leaves the hair clean, bright, wavy and rich in color.

To keep the face youthful and fair, make a simple lotion by dissolving an original package of mayatons in a half pint of witch hazel and rub over the face, neck and arms every morning. Your complexion will soon be smooth, clear, satin-like and free from blemishes.

Wild hairs or fuzzy growths can be made to vanish quickly by applying delatone paste. Mix enough powdered delatone with water to cover the hairy surface; apply and after two or three minutes rub off, wash the skin, and the hairs will be gone. Chaps, cold sores, pimples, eczema and skin eruptions disappear if you rub Mother's Salve into the affected surface before retiring. It quickly heals sores, cuts, burns, scalds, etc. It is antiseptic as well as healing and lessens danger of blood poisoning.
